

EMPOWER YOUR EMPLOYEES

An assistive device for independent reading and understanding, especially designed to protect integrity in workplace use.

ReaderPen Secure does not store any data and thus secure user integrity as well as employer intellectual and confidential material. Scan text to have the text read out with natural speaking voices. Use built-in highest tier dictionaries to access definitions to secure understanding. Everything is built-in and there is no need or requirement for internet connection.

Use ReaderPen Secure to independently and efficiently read through documents and working material, like memos, manuals, and documents.

ReaderPen Secure features

- Reads text out aloud in English, Spanish and French.
- Multiple built-in word definition dictionaries.
- Speaker and earphone jack.
- Rechargeable battery.

Scanning pens are essentially digital highlighter or mark-up pens. But takes you one step further. A scanning pen digitizes the printed information and allows it to be processed further which makes it possible to use for multiple purposes. The ones important to us are productivity and learning.
